STATEMENT BY THE SELECTMEN

TO THE CITIZENS AND TAXPAYERS OF FARMINGTON:

We submit herewith our annual report for the year ending January 31, 1940, together with the proposed budget for the ensuing year.

FINANCIAL

The treasurer's report shows a comfortable cash position with a bank balance of \$21,246.06. It is desirable that this cash position should be maintained at the close of succeeding years which might make it possible to avoid the necessity of borrowing in anticipation of taxes. We were obliged to borrow only \$5,000.00 for this purpose during 1939 (at an interest charge of only \$70.84) as compared with \$13,000.00 in 1938.

It is interesting to note in this connection that we paid \$1,923.34 of interest in 1939 as contrasted with \$3,668.88 in 1935, or a saving of \$1,745.54.

\$1,160.00 of this resulted from a \$16,000.00 reduction in the debt in the intervening years (which was obligatory) and the refunding of the floating debt at a lower rate of interest, while \$585.00 resulted from smaller borrowing on temporary notes.

Reference to the balance sheet shows satisfactory progress in the reduction of the net debt. (However, there are some items in the list of potential assets which are of doubtful value and will eventually have to be written off as a loss.)

We recommend an appropriation of \$1,850.00 for interest for the ensuing year.

We have given a great deal of serious thought to the preparation of the budget and have tried to arrive at estimates which, within the capacity to pay, will provide such services as the public can reasonably demand.

For town officers' salaries we recommend an appropriation of \$1,900.00.

We have cut the appropriation for Administration and town officers' expenses from \$1,850.00 to

\$1,400.00. This, because of a non-recurring item and because we propose to charge the premium on liability insurance against the several accounts, where it belongs, instead of against Administration as heretofore. We have always recognized that this was a faulty way of treating this charge and have decided to make the change in the interest of truer accounting.

This premium is chargeable against the Highway General Expense account, the Town Hall expense and the Police Department and it is expected that it can be absorbed in these accounts without increasing the appropriations.

The appropriation for Election and Registration expenses will have to be more this year than last because of the Presidential election and the printing of new check-lists. This will require the \$380.00 recommended.

HIGHWAYS

In the past year we have extended our hard surfaced roads by giving the preliminary tarvia treatment to about 2,265 linear feet of village streets and 770 feet of country road.

We also gave a second application of tarvia to about 6,025 feet of old work. All of this should have another application, and it is hoped that about the same amount of new work may be done this year as last. While this work involves, in most cases, some additional graveling to prepare a suitable surface, the continuation of this work as funds become available will be economy in the long run.

Under the Town Road Aid program we gravel surfaced about 2.10 miles of Class V roads from the Chestnut Hill road to the Hare road, thence on the Hare road to the Rochester line. This work should be continued and we recommend the appropriation of \$699.14, the amount required to secure the allotment of state funds.

The two bridges near the Rochester reservoir (on the Strafford cross road and the Sheepboro road) were rebuilt at a total cost of about \$275.00 for labor and material, and a small bridge on the Gray hill road was rebuilt at a cost of about \$32.00. It was also necessary to rebuild one half of the upper bridge at the "Waldron mill pond", which cost \$45.00.

There is on hand about 7,500 feet of bridge plank, a considerable part of which will be required this year.

While the favorable snow conditions this winter have left a surplus in the appropriation for winter maintenance, we believe it is only prudent to provide adequately for whatever next winter may have in store for us. We suggest \$4,000.00, the same as last year.

WELFARE

We recommend an appropriation of \$4,000.00 for Old Age Assistance as against \$3,500.00 last year. This must be accepted as a permanent and continually increasing charge.

Because of the reduction in the age limit from seventy to sixty-five years we expect there will be an increase in the number of applications and we believe \$4,000.00 is the minimum which will be adequate to meet the increased charge.

It must be recognized that this estimate is little better than "guess work", as we have no means of knowing what the increase will be.

For town poor and Soldiers' aid we suggest the same appropriations as last year (\$4,000.00 and \$500.00 respectively) notwithstanding the large deficit in both of these accounts.

In spite of every effort to keep these costs at a minimum, one emergency after another has arisen which we could see no way to evade. No small part of the increase reflects the unemployment situation which prevailed in town during the greater part of the year. With improved employment conditions it is reasonable to expect that relief costs can be greatly reduced.

It may be pertinent to observe in this connection that the unemployment situation was reflected to a considerable extent in the unusually large amount of tax sales in 1939, and unless local property owners can secure employment this situation will grow worse instead of better.

BLISTER RUST CONTROL

We recommend that the town continue this work in conjunction and under the supervision of the State Forestry and Recreation Department, so that the small and medium sized white pine trees may be saved from this destructive disease.
